- JavaScript (ES6)
- SCSS
- Material UI
- CSS3
- WooCommerce
- DIVI
- Netlify

EDUCATION

Diploma in Mechanical Engineering

Chattogram Polytechnic Institute
2018 – 2023

Secondary School Certificate

Baitush Sharaf Adarsha Kamil Madrasah
2016 - 2018

WORK EXPERIENCE

WEB DESIGNER at African Fabrics Inc., 2022 – 2023

Responsible for developing websites, online marketing campaigns, E-commerce solutions and email campaigns for a number of different festivals. Turning creative concepts into finished websites. Building websites that are easy to understand, navigate and use.

Key responsibilities:

- Collaborating closely with graphic designers, content writers and digital marketers to ensure the website's visual aesthetics aligned with branding objectives and optimize online visibility and engagement.
- Developed a versatile e-commerce platform capable of serving both retail and wholesale clientele.
- Implemented a bulk quantity order form to streamline wholesale purchasing processes.
- Maintained separate accounts for retail and wholesale buyers to facilitate personalized experiences.
- Introduced a loyalty points system for wholesale buyers, allowing them to redeem points for discounts, thereby enhancing customer retention and satisfaction

WEB DESIGNER at MedAll BD, 2020 –2021

As a Web Development Specialist, my main role was to create a user-friendly website using WordPress for an e-commerce platform specializing in pharmaceutical products. This involved working closely with graphic designers to ensure the website's visual elements matched our branding needs. Additionally, I collaborated with digital marketers to analyse and improve website traffic, enhancing our online presence and engagement.

During my time in this role, I successfully built and maintained a dynamic online platform tailored to the unique requirements of the pharmaceutical industry.
